RUDE LE ROUX ART

By embracing originally in my journey to discovery I hope to not only be inspired but also to inspire...
Although I am influenced by many artists and combinations of styles & technique including my photography I am still in the process of developing my own unique style.
The "" SUBJECT "" is based on modern day woman/people and I make use of some fashion elements, as reference to specific time and setting. The use of mostly black & white and now extremely bright colours is the foundation of the exploration of my style. The Black & white and high contrast images seems to portray and express emotion more intensely than other.

MY BUSINESSES

ART EXHIBITION TUESDAYS (2009)

This was a project by Dex Studios under the management of Rudè le Roux. These events were held in Stellenbosch every fortnight on a Tuesday evening. The purpose of this event was to put culture back into the community's blood and to give young and upcoming artists the opportunity to showcase their work. Each weeks wine tasting was sponsored by a wine label to also act as promotion for their brand.
More specifically CHATTERBOX.

*planning, marketing, execution

DEX STUDIOS (since 2005)

Dex Studios : Graphic design/art/events
Under the management and ownership of Rudè le Roux. it consists of a variety of creative services to provide clients with the best combination of concepts to suit their projects. Combined with a professional graphic design service we pride ourselves on our fine arts division dealing with all forms of art. We also specialize in exhibition events: creating, planning, and coordinating exhibition events for any product to be promoted.
